Title should be:

Internship Research Paper [your name]

Appendix Section (`Appendix´ should be centered in top of paper)

- A section at the end of a paper that includes information that is too detailed for the text of the paper itself and would "burden the reader" or be "distracting," or "inappropriate"
- The content in the appendices should be "easily presented in print format"

On-site Data Collection

- Interview
- Case studies
- Surveys
- Web analytics
- Observations

Interview

What to do for appendix section:

You will transcribe (write out word for word) your entire interview.

Title the interview:

Last name of interviewee, first name. Personal Interview. Day Month Year.

Example: Smith, John. Personal Interview. 13 October 2017.

Example

Interviewer: Good Morning, I'm doing a research project on art in the school curriculum, do you mind If I ask you a few question on your opinions about art

Teacher: No not at all. Go ahead.

Interviewer: Alright, how would you value art in your classroom on a scale of 1-5?

Teacher: I would say a four.

Interviewer: Do you mind expanding on why?

Teacher: I'm a first grade teacher so while I enjoy art it can be hard to work into assignments sometimes.

Surveys

What to do for appendix section:

You will need to format the results in a readable way

- Pie chart
- Table
- Bar graph
- Something else?

Example of Condensed Survey Data

Click on the link for an example

Case Studies

What to do for appendix section:

a) Background of subject- if you are observing one person, give any demographic information: Age, gender identification, etc. Any information about activity you were observing.

b) Observations- What did you see and observe? There should be no conclusions drawn yet

c) Interpretations of Observations- based on what you observed, how can you interpret these actions? You may want to give a qualitative score as well like in the example.

Example of Case Studies

Please [click on this link](#) for a student case study

Web Analytics

What to do for appendix section:

If your data analysis is a reasonable size, then a combination of any of these will work:

- Pie chart
- Table
- Bar graph
- Something else?

Example of Web Analytics
